

## CONSENT FOR SPORTS MOUTHGUARD

I hear by consent for \_\_\_\_\_ to have a custom-made mouthguard made by Knowlton Dental Associates. I have been informed that the mouthguard needs to be examined periodically and is good for only one season. If my son/daughter is wearing braces the mouthguard may need to be replaced every 3 months or as directed by the Orthodontist. The mouthguard is made specifically for my son/daughter and is not transferable. It is to be used solely for helping protect teeth and surrounding tissues during athletic activities, events and practices and to help prevent concussions and reduce the probability of head and neck injuries. The mouthguard is not to be cut or altered in any way as this reduces the protective properties of the mouthguard. The mouthguard should be cleansed with toothpaste and cold water only and restored in a cool area, otherwise distortions occur. I understand that this mouthguard is not a guarantee that injury will not occur.
